New in This Release

New Features

The following features have been added in this release:

Key	Summary	Release Notes
EMC-8109	Gold - P8 - Vitals "Copy Down"	Added "Copy Down" option for rows in the Page 8 Activity Log.
EMC-7990	Gold- Neonatal- Multipick Needs To Be Updated with Goldstyle	Updated the user interface on some Neonatal Multiselect Fields
EMC-7731	Gold - Narrative Page - Phase 1	Added large free text Narrative section, with configuration option.
EMC-8119	Gold - P3/P8 GCS NT Printing	Changed the way GCS displays for NT selections values on the chart summary page.
EMC-7669	GOLD: BILL vs. State Transport Outcome Configuration	Added a feature to allow excluding certain records from getting exported to NEMSIS. This is most commonly used in situations where there is a team transport and a state NEMSIS export is not needed. However, there is still a need to bill for these records, so this feature will still allow for the billing export to continue.
EMC-5238	GOLD - CAD Configuration Swap Dispatch/Local ID	Added a checkbox labeled as "Swap Dispatch and Local ID" to the cad import options.
EMC-8059	Gold: Chart Toolbox Fax Log	A "Fax Audit Log" button has been added to the Chart Toolbox underneath the Fax Chart button. Clicking the new button will show any faxes related the to chart.

EMC-7732	Gold - QA Auto Advance After Time Period	The QA Levels Code Table now has new feature named "Auto Advance After Set Number Of Days". This will auto advance any chart at this QA level after it has been in the QA level for X number of days. This will also occur retroactively when set.

Improved in This Release

The following issues have been addressed and resolved in this release:

Page 1

Key	Summary	Release Notes
EMC-7733	Gold - Can't unselect a default referring	Fixed an issue that prevented clearing out or un-selecting the entries made in the "Other Type" dropdown menu in the referring and receiving sections.
EMC-7712	Gold: Allow Dispatch ID to be 50 characters - On Hold until DB Maintenance	We increased the size of the Dispatch ID field on page 1. It now accepts up to 50 characters.

Patient Page

Key	Summary	Release Notes
EMC-8084	Gold - 'Emergency Information Form:' not saving causing Data Validation to not function	Fixed bug on the patient page where values would not save on the "Emergency Information Form" dropdown.

Page 2

Key	Summary	Release Notes
EMC-8239	Gold - P2 patient movement - Cannot lock chart	Added in backwards compatibility, for data validation purposes, for the following Page 2 fields: "Moved to Vehicle Via" and "Position in Vehicle".

Other

Key	Summary	Release Notes
EMC-7857	PDF Signature Form does not fill page when printed	Fixed an issue with the Standard Signature form that resulted in the form not consuming the entirety of a printed page.
EMC-8273	Gold - Yes/No toggles not highlighting	Fixed UI a issue on the NEMSIS export tab where toggle buttons would not display the selection saved.
EMC-8152	Gold - Reporting	Fixed an issue on the Criteria Tab of the Reports module. Previously, clicking the magnifying glass to lookup a criteria value would not do anything.
EMC-8153	Gold - Hire Dates not displaying	Fixed an issue where the Hire Date on the User Roster would not save properly.
EMC-7477	Gold - Repeat Patients Report Not working	Fixed an issue with the load time of the Repeat Patient Report.
EMC-6222	Gold - Human Resources - My Certifications - Edit Hyperlink Not Functioning	Fixed an issue with the My Certifications screen that prevented editing of existing certifications.
EMC-8265	Gold - Queuing RD from menu causes error	Fixed error when searching for a PRID in the remote downloader log.

Known Issues

The following issues have already been identified and will be addressed in a future release:
