New Features

The following features have been added in this release:

Key	Summary	Release Notes
EPCR-205	Legacy - Expand search options available to all fields	The HL7 Import Search available for hospitals and services was significantly enhanced to allow viewing of numerous output fields including: Dispatch ID, Local ID, PRID, HL7 Acct # (new), DT Disp, Brought in by code (new), Service, Diagnosis description, Chart Lock Date, Location, Receiving, Patient, Clinical Category, Dispo (Outcome), IH/Scene, Current QA Level, Attachments, Custom Forms, and Crew Members
EPCR-365	Legacy - HL7 PR Searching - Too many clicks (for the end user)	The HL7 Patient Records search was moved to the Add Patient screen. Previously, this functionality required the user to first add a new patient.
EPCR-204	Legacy - HL7 Search add Brought By to Search and Show on Results	The new Brought By field has been added to the HL7 search and result output.

Improved in This Release

The following issues have been addressed and resolved in this release:

Page 1

No changes.

Patient Page

No changes.

Page 2

Key	Summary	Release Notes
EPC R-282	Legacy - PPE Exposure Removal Passes Validation	Fixed an issue in the Exposure documentation that caused a validation rule to become "unclearable" when removing PPE values after having previously saved them.

Key	Summary	Release Notes
EPCR-239	Legacy - New Signature Dropdown Doesn't Allow Non-Crew to Sign	Fixed an issue related to the new crew signatures dropdown. Previously, non-crew members would be unable to sign the chart (such as QA or Medical Directors).
EPCR-190	Legacy - Attachment Page doesn't show system categories	Fixed an issue when adding attachments where certain categories set at the system level were not displayed.

Other

Key	Summary	Release Notes
EPCR-140	Legacy - Chart Summary; BLS/ALS Logic is Inaccurate	Back end logic to label charts as BLS or ALS was adjusted to address certain edge cases.
