Improved in This Release

The following issues have been addressed and resolved in this release:

Key	Summary	Release Notes
EMC-6086	'Crew 1 role multiple:' Is one of: Must be first.	Fixed a bug where crew rules (multiple) validation rules were not honored or satisfied appropriately.

EMC-6164	Custom Reporting FTP Failure Support Ticket	Updated Gold with the change from Legacy. Added more detail to error message displayed when reports fail. Now shows the reason for the failure.
EMC-6169	Service Configuration- MobileQAB- Onchange Event Not Updating Dynamically	Fixed Mobile/Gold Quick Action Buttons in Code Tables. The "Procedure" dropdown's options will now change dynamically depending on what option was chosen for "Category".
EMC-5210	Gold: Patient Page - Toolbar Links Do Not Scroll to the Appropriate Sections	Fixed scroll bug on patient page.
EMC-6147	Gold: Hidden Certifications (Hotfixed in Legacy)	If commands facilities hide a certification it will no longer show up as an option on certifications under the human resources section when assigning to a user. Command Facilities default certifications only.
EMC-5894	Patient Follow Up Bug	The Ohio Trauma Triage option was fixed in the Patient Followup page. The CSS, functionality, and queries were fixed in order for this option to work in Gold. Also to make the UI more user-friendly, the placement of the "Save" and "Save and Close" buttons were changed.
EMC-6258	Patient Page: Patient Info Cont'd - Adding Physician Error Due To Phone Number	Fixed a bug that asked for a phone number in the Physicians Window on the patient. This will no longer appear.
EMC-5663	Patient Add from Patient Management - Race/Phone	Fixed the Patient Details form in Patient Management so that Race and Phone input fields display, function, and save correctly. Also, fixed Race and Phone for the Patient page in charts.
EMC-6001	Gold: Update hospital state ID if it already exists instead of insert	Updated /sec/hospinfo_statereq.cfm in Gold with Legacy code.
EMC-5670	Gold: Patient Page - Relatives Not saving	Fixed bug that prevented relatives from carrying over from existing patients.
EMC-5995	Gold: Custom Forms: Escape Pound Sign	Fixed bug that caused an error if a custom form has a pound sign/Hash tag (#)
EMC-5810	Gold: System Global Reports formatting	Fixed display and Run-time errors for Global Reports.
EMC-5179	Gold: P5 Secondary Survey - Values Entered into Findings Textbox Do Not Trigger Shading or Persist	Fixed bug that reloaded the page multiple times. Also fixed bug that preventing the location from highlighting when findings were entered
EMC-6039	Service Configuration - Mobile/Gold QAB - When clicking on a Quick Action button to edit it, it closes the window and nothing happens	Fixed Mobile/Gold Quick Action Buttons code table in Gold so now all of the links and buttons function correctly. Also, fixed the dialog modal so that it not longer cuts off and allows scrolling.
EMC-6137	Gold: Geocoding additional compliance	Added user prompt if Referring or Receiving change. Fixed geocoding when entering cross-streets and addresses.
EMC-6008	Legacy / Gold: Allow deletion of national registry/user licensure	Added functionality to allow blank entries for National Registry.
EMC-5899	Page 7: Time fields: If numeric add ":"	Page 7 Medications / Infusions time are now auto formatted to hh:mm if the value is numeric.
EMC-5968	Gold: P5 Secondary Survey - Buttons Function Intermittently	Fixed a number of display bugs including appropriately showing the green shade when an assessment is complete.
EMC-5939	Gold: Special Reports - Search Form - Missing Fields	Fixed Special Report's datetimepicker, date search functionality, page layout, and the datatable popup error.
EMC-5890	Add new Journal entry to calendar in homepage not working	Fixed the ability to add a new entry to journals.
EMC-6092	Homepage Journal File upload IE and Firefox CSS	Fixed a small issue with the display of the 'Upload Attachment' field on the 'Add Event' window of the home page journal.
EMC-6204	Gold: Level of Service - Add additional criteria to cardiac monitor to increase LOS	Updated the billing process to include additional checks for Cardiac Monitor to determine ALS or BLS Billing.

EMC-6353	Gold: Homepage: Go To Current Version 404 Error	Fixed file not found error from home screen when clicking "Go to Current Version".
EMC-6051	Error in /dba/user_details.cfm	Fixed error in User Details popup window.
EMC-5940	P5: No Anatomical - Only Displays Back and Extremities	Fixed display issues with NEMSIS v2 Page 5 Exam/Assessment.
EMC-6053	Update Header / Sidebar for Training Module	Updated the training section with the new header.
EMC-5965	Gold: P5 Secondary Survey - Reset Button Does Not Clear Tree	Fixed bug that prevented the "reset" button on page 5 to work fully due to findings entered for assessments.
EMC-5941	Gold: P5 - Burns - Error Code Loop	Fixed bug that caused an endless loop on a validation alert. It was converted to red text.
EMC-5719	Data Validation: Not Working For Patient Gender	Data Validation overhaul has fixed the "is one of" bug.
EMC-6257	P9: Reason For Transport Form - Subsequent Access Results in Error	Fixed bug that caused an error when deleting Reason for Transport on Page 9.
EMC-6256	P8: Vitals Modal - EKG Rhythm - Selections Are Duplicated	Fixed duplication of picklist options for the "Rhythm" picklist in the "Add Vitals" modal window.
EMC-6021	P1: Receiving - The button to add a physician does not work	Receiving "Add MD" fixed. Users are able to add new doctors to the MD drop-down list and select the newly created options for use in new charts and existing charts. Updated to allow for blank save of Receiving MD. Fixed bugs: typing in MD with select 2 search not allowing for save.
EMC-5937	Gold: Remove references to Biscom in codebase Part II	Updated Fax labels/descriptions in the User Interface for Gold.
EMC-5756	P1: Referring Hospital - MCD Does Not Populate	Fixed MCD codes not populating.
EMC-5235	P2: Other Public Safety and Exposure Breadcrumb Links Not Targeted	Fixed Page 2 Breadcrumb links and widget layout.
EMC-5905	P8: Procedures - Require Crew	Fixed bug that allows vitals to save without a crew selected.
EMC-6006	Gold: Cover page problem	Fixed issue with coverpage not being faxed.
EMC-6030	P2: Impressions - Save button not visible (Using MS Edge Browser)	Fixed the advmultipicklist input field's "Save", "Clear", and "Close" buttons. Now they display correctly on the modal footer instead of at the very top and bottom of the modal body.
EMC-5685	Gold: P9 - Sec Sys Admin - 'Verify/Reverse NEMSIS Codes' button file not found error	Fixed missing Page 9 NEMSIS Reverse Code Functionality.
EMC-6054	Gold: P5- Unresponsive Assessment Tree	Fixed bug that prevented tree shading on Page 5 in Firefox.
EMC-5907	Support Software Download UI	Updated header and side menu for pages in Support module.
EMC-5908	Adding new user	Fixed UI issue with User Search popup.
EMC-6025	Patient Page: Phone - Error	Fixed Gold to allow users to save phone numbers when adding a new patient in Patient.
EMC-6391	Training Documentation Not Downloading	Fixed broken downloads in training documentation section
EMC-6313	Gold: QA Level Filter Rules - "and/or" Ordering Correction	Added ability to create a custom grouping statement (similar to custom reports) for QA Auto Advance Filters. Please reference this link for complete instructions on configuring and using this feature: QA Levels - Grouping Statement (https://emscharts.atlassian.net/wiki/x/EgCOK)
EMC-6244	Performance Improvements - Add Vitals Modal	Made some performance improvements to Page 8 and the "Add Vitals" modal window.

EMC-6203	Home Page: Crew Roster - Unable to Edit	Updated warning for tracking next crew member. Date/Time control is now functional.
EMC-6398	Gold - Special Reports - Crew Unable to Complete Report	Fixed error that prevented the saving of special reports. Also addresses special report layout issues for non-software administrators
